

## 20/20 Captioning has been a life saver...

20/20 Captioning has been a life saver!

I started attending law school last fall and found myself among the most competitive group of students I have ever encountered in my academic career. 20/20 Captioning & Reporting has allowed me to spend my time taking notes and participating in class discussion instead of switching my time between listening to the professor and taking notes -- often missing important pieces of information.

20/20 Captioning & Reporting deserves credit for making a very difficult year much less stressful with both their captioning and their positive attitudes.

Besides, it is fun to be able to tell your professors how many words per minute they are speaking!

Kathleen, Graduate Student
